Human Trafficking-Natividad Gutiérrez Chong 2017-09-13 In the post-Cold War era, economic globalization has resulted in the buying and selling of human beings. Poverty, social instability, lawlessness, gender biases, and ethnic hostility have entraped millions in the world of modern day slavery, with the result that human trafficking is one of the fastest growing criminal industries in the world. Every year, men, women, and children from across the globe are transported within or across borders for the purpose of forced labor and sexual exploitation. Despite the plethora of journalistic articles written on human trafficking there is a need for more rigorous academic analysis of the phenomenon. Although groups from many different ideologies have embraced policies to end human trafficking, there are still many gaps and unanswered questions, particularly with regard to the amount of, and nature of, the phenomenon. This book provides an insight into the complexity of human trafficking by addressing both how the scope of globalization impacts the sex industry and forced labor, and how vulnerability is a growing cause of human trafficking, affecting traditional diasporic and migratory patterns. This book was originally published as a special issue of the Journal of Intercultural Studies.

Globalization, Prostitution and Sex Trafficking-Elina Penttinen 2007-08-07 Globalization has been traditionally interpreted as a phenomenon that takes place at the macro level and is determined by states and markets. This volume takes a different approach to understanding globalization, showing how through the global sex trade, globalization is embodied and enacted by individuals. Elina Penttinen illustrates how the global sex industry feeds on complex global flows. Drawing on extensive fieldwork on the trafficking of Russian and Baltic female sex workers, she demonstrates how the embodiment and reiteration of globalization on the bodies of enslaved and their oppressors—Kara sets out the key manifestations of modern slavery and how it is embedded in subclass whose brutalization is tacitly accepted by the current global economic order. Kara has developed a growing cause of human trafficking, affecting traditional diasporic and migratory patterns. This book was originally published as a special issue of the Journal of Intercultural Studies.

Modern Slavery-Siddharth Kara 2017-10-10 Siddharth Kara is a tireless chronicler of the human cost of slavery around the world. He has documented the dark realities of modern slavery in order to reveal the degrading and dehumanizing systems that strip people of their dignity for the sake of profit—and to link the suffering of the enslaved to the day-to-day lives of consumers in the West. In Modern Slavery, Kara draws on his many years of expertise to demonstrate the astonishing scope of slavery and offer a concrete path toward its abolition. From labor trafficking in the U.S. agricultural sector to forced labor in the Thai seafood industry, Kara depicts the myriad faces and forms of slavery, providing a comprehensive grounding in the realities of modern-day servitude. Drawing on sixteen years of field research in more than fifty countries around the globe—including revelatory interviews with both the enslaved and their oppressors—Kara sets out the key manifestations of modern slavery and how it is embedded in global supply chains. Slavery offers immense profits at minimal risk through the exploitation of vulnerable subclasses whose brutalization is tacitly accepted by the current global economic order. Kara has developed a business and economic analysis of slavery based on metrics and data that attest to the enormous scale and functioning of these systems of exploitation. Beyond this data-driven approach, Modern Slavery unflinchingly portrays the torments endured by the powerless. This searing exposé documents one of humanity’s greatest wrongs and lays out the framework for a comprehensive plan to eradicate it.

Human Trafficking and Globalization-Ann Jordan 2004

Globalization, Prostitution and Sex Trafficking-Elina Penttinen 2007-08-07 Globalization has been traditionally interpreted as a phenomenon that takes place at the macro level and is determined by states and markets. This volume takes a different approach to understanding globalization, showing how through the global sex trade, globalization is embodied and enacted by individuals. Elina Penttinen illustrates how the global sex industry feeds on complex global flows. Drawing on extensive fieldwork on the trafficking of Russian and Baltic female sex workers, she demonstrates how the embodiment and reiteration of globalization on the bodies of gendered individuals are tied to the larger processes of globalization. Appadurai’s framework of landscapes of globalization is developed into a framework of shadow sexscapes in order to show how the global sex industry feeds on complex global flows and in turn operates as a form of shadow globalization. Globalization, Prostitution and Sex Trafficking will be of interest to students and researchers of international relations, globalization and gender studies.

The Oxford Handbook of Transnational Feminist Movements-Rawwida Baksh-Soodeen 2015 The Oxford Handbook of Transnational Feminist Movements explores the historical, political, economic and social contexts in which transnational feminist movements have emerged and spread, and the contributions they have made to global knowledge, power and social change over the past half century. The publication of the handbook in 2015 marks the fortieth anniversary of the United Nations International Women’s Year, the thirtieth anniversary of the Third World Conference on Women held in Nairobi, the twentieth anniversary of the Beijing Declaration and Platform for Action, and the fifteenth anniversaries of the Millennium Development Goals and of UN Security Council Resolution 1325 on ‘women, peace and security’. The editors and contributors critically interrogate transnational feminist movements from a broad spectrum of local, national, regional, and global levels, and in turn operates as a form of shadow globalization. Globalization, Prostitution and Sex Trafficking will be of interest to students and researchers of international relations, globalization and gender studies.

The Industrialization of Sex—Kara Rachelle Davies 2007

The Dark Side of Globalization—Jorge Heine 2011 "This remarkably fine book constitutes the elegant bridge between academic theorizing about globalization and the inspired anecdote of Thomas Friedman." Tom Farer, University Professor and past Dean, Josef Korbel School of International Studies, University of Denver

"Indispensable reading for anyone who wants to understand the full range of contents and discontents caused by globalization." Thomas G. Weiss, Director, Ralph Bunche Institute of International Studies, CUNY; and past president, International Studies Association Seen by some as a desirable and irreversible engine of prosperity and progress, globalization is resisted by others as the soft underbelly of a corporate imperialism that plunderers and profiteers in the global marketplace. Globalization has brought many benefits, including the reduction of poverty in several countries. But it also has a dark side: the unleashing of negative forces as a result of the compression of time and space made possible by modern technology. Examples include the transnational flows of terrorism, drug and human trafficking, organized crime, money laundering, and global pandemics. How do these various expressions of "uncivil society" manifest themselves? How do they exploit the opportunities offered by globalization? How can governments, international organizations and civil society deal with the problem? From arms trafficking in West Africa through armed insurgencies in South Asia and the upsurge of jihad in the age of globalization, this book examines the challenges that the dark forces of globalization pose to the international system and the responses they have triggered. Written largely by authors from developing countries, the book's goal is to help maximize the beneficial consequences of globalization while muting its baleful effects.

Disposable People—Kevin Bales 2012-04-23 Slavery is illegal throughout the world, yet more than twenty-seven million people are still trapped in one of history's oldest social institutions. Kevin Bales's disturbing story of slavery today reaches from brick kilns in Pakistan and brothels in Thailand to the offices of multinational corporations. His investigation of conditions in Mauritania, Brazil, Thailand, Pakistan, and India reveals the tragic emergence of a "new slavery," one intricately linked to the global economy. The new slaves are not a long-term investment as was true with older forms of slavery, explains Bales. Instead, they are cheap, require little care, and are disposable. Three interrelated factors have helped create the new slavery. The enormous population explosion over the past three decades has flooded the world's labor markets with millions of impoverished, desperate people. The revolution of economic globalization and modernized agriculture has dispossessed poor farmers, making them and their families ready targets for enslavement. And rapid economic change in developing countries has bred corruption and violence, destroying social rules that might once have protected the most vulnerable individuals. Bales's vivid case studies present actual slaves, slaveholders, and public officials in well-drawn historical, geographical, and cultural contexts. He observes the complex economic relationships of modern slavery and is aware that liberation is a bitter victory for a child prostitute or a bondaged miner if the result is progress, globalization is resisted by others as the soft underbelly of a corporate imperialism that plunderers and profiteers in the global marketplace. Globalization has brought many benefits, including the reduction of poverty in several countries. Illicit—Moises Naim 2006-10-10 A groundbreaking investigation of how illicit commerce is changing the world by transforming economies, reshaping politics, and capturing governments. In this fascinating and comprehensive examination of the underside of globalization, Moises Naim illuminates the struggle between traffickers and the hamstrung bureaucracies trying to control them. From illegal migrants to drugs to weapons to laundered money to counterfeit goods, the black market produces enormous profits that are reinvested to create new businesses, enable terrorists, and even to take over governments. Naim reveals the inner workings of these amazingly efficient international organizations and shows why it is so hard—and so necessary to contain them. Riveting and deeply informed, Illicit will change how you see the world around you.

Human Trafficking—Louise Shelley 2010-07-29 This book examines all forms of human trafficking globally, revealing the operations of the trafficking business and the nature of the traffickers themselves. Using a historical and comparative perspective, it demonstrates that there is more than one business model of human trafficking and that there are enormous variations in human trafficking in different regions of the world. Drawing on a wide body of academic research - actual prosecuted cases, diverse reports and field work and interviews conducted by the author over the last sixteen years in Asia, Latin America, Africa, Europe and the former socialist countries - Louise Shelley concludes that human trafficking will grow in the twenty-first century as a result of economic and demographic inequalities in the world, the rise of conflicts and possibly global climate change. Sex Trafficking - Siddharth Kara 2017-08-29 “The best book ever written on human trafficking for sexual exploitation”—the basis for the feature film, Trafficked, starring Ashley Judd (Kevin Bales, president of Free the Slaves). Every year, hundreds of thousands of women and children are abducted, deceived, seduced, or sold into forced prostitution. These trafficked sex slaves form the backbone of one of the world’s most profitable illicit enterprises and generate huge profits for their exploiters, for unlike narcotics, which must be grown, harvested, refined, and packaged, sex slaves require no such “processing,” and can be repeatedly “consumed.” In this book, Kara provides a riveting account of his four-continent journey into this unconscionable industry, sharing the moving stories of its victims and revealing the shocking conditions of their exploitation. He draws on his background in finance, economics, and law to provide the first ever business analysis of contemporary slavery worldwide, focusing on its most profitable and barbaric form: sex trafficking. Kara describes the local factors and economic forces that gave rise to this and other forms of modern slavery over the past two decades and quantifies, for the first time, the size, growth, and profitability of each industry. Finally, he identifies the sectors of the sex trafficking industry that would be hardest hit by specifically designed interventions and recommends the specific legal, tactical, and policy measures that would target these vulnerable sectors and help to abolish this form of slavery, once and for all. The author will donate a portion of the proceeds of this book to the anti-slavery organization, Free the Slaves. “Sex trafficking is more of a problem than most people realize. Read this well-written book and find out.”—Kirk Douglas

Snatched from a ravaged land - Derek Mitchell 2009

Women Navigating Globalization - Jana Everett 2013-11-14 This up-to-date text offers a clear and cogent introduction to women in development. Exploring the global structures and processes that impede or support the empowerment of women, Jana Everett and Sue Ellen M. Charlton use a feminist lens to understand contemporary gender roles. Without such a lens, they argue, our understanding of globalization and development is incomplete, resulting in flawed policies that fail to improve the lives of millions of people around the globe. After a set of introductory chapters that conceptually frame the issues, the authors then investigate women’s struggles within and against globalization and development through powerful case studies of sex trafficking, water, work, and health. These chapters, by using specific examples, develop the concepts of structure and agency, levels of analysis, and feminist approaches as tools to help students understand the complexities of development and alternative strategies. Through rich interdisciplinary analysis, Everett and Charlton explore the individual and collective strategies women have used to improve their lives under globalization and weigh how effective they have been. Their book will be an essential resource in women’s studies, political science, political economy, anthropology, sociology, and development studies.

Human Trafficking - Dedria Bryfonski 2013 Essays convey varying viewpoints on the topic of human trafficking, covering such topics as the factors contributing to it, whether Internet sites used for sex trafficking should be shut down, and globalization’s impact on the trade.

The Industrial Vagina - Sheila Jeffreys 2008-11-19 The industrialization of prostitution and the sex trade has created a multibillion-dollar global market, involving millions of women, that makes a substantial contribution to national and global economies. The Industrial Vagina examines how prostitution and other aspects of the sex industry have moved from being small-scale, clandestine, and socially despised practices to become very profitable legitimate market sectors that are being legalised and demoralised by governments. Sheila Jeffreys demonstrates how prostitution has been globalized through an examination of: the growth of pornography and its new global reach the boom in adult shops, strip clubs and escort agencies military prostitution and sexual violence in war marriage and the mail order bride industry the rise in sex tourism and trafficking in women. She argues that through these practices women’s subordination has been outsourced and that states that legalise this industry are acting as pimps, enabling male buyers in countries in which women’s equality threatens male dominance, to buy access to the bodies of women from poor countries who are paid for their sexual subservience.

Globalization and Human Rights - Alison Brysk 2002-10-15 In this landmark volume, Alison Brysk has assembled an impressive array of scholars to address new questions about globalization and human rights. Is globalization generating both problems and opportunities? Are new problems replacing or intensifying state repression? How effective are new forms of human rights accountability? These essays include theoretical analyses by Richard Falk, Jack Donnelly, and James Rosenau. Chapters on sex tourism, international markets, and communications technology bring new perspectives to emerging issues. The authors investigate places such as the Dominican Republic, Nigeria, and the Philippines. The contemporary world is defined by globalization. While global human rights standards and institutions have been established, assaults on human dignity continue. These essays identify the new challenges to be faced, and suggest new ways to remedy the costs of globalization.
Combating Trafficking in South-East Asia—Annuska Derks 2000 During the past decade, trafficking has become an issue of growing concern in South-East Asia. It has been conservatively estimated that at least 200-225,000 women and children from South-East Asia are trafficked annually, a figure representing nearly one-third of the global trafficking trade. South-East Asia is the most significant source region for the 45-50,000 women and children estimated to be trafficked into the US each year, with 30,000 coming from South-East Asia. This study reviews what is known about trafficking in the region, providing a systematic overview of the variety of responses that.

Transnational Organized Crime—Heinrich-Böll-Stiftung 2014-03-31 Transnational organized crime interferes with the everyday lives of more and more people—and represents a serious threat to democracy. By now, organized crime has become an inherent feature of economic globalization, and the fine line between the legal and illegal operation of business networks is blurred. Additionally, few experts could claim to have comprehensive knowledge and understanding of the laws and regulations governing the international flow of trade, and hence of the borderline towards criminal transactions. This book offers contributions from 12 countries around the world authored by 25 experts from a wide range of academic disciplines, representatives from civil society organizations and private industry, journalists, as well as activists. Recognizing the complexity of the issue, this publication provides a cross-cultural and multi-disciplinary analysis of transnational organized crime including a historical approach from different regional and cultural contexts.

The Political Economy of Violence Against Women—Jacqui True 2012-09-06 Violence against women is a major problem in all countries, affecting women in every socio-economic group and at every life stage. Yet, when women enjoy good social and economic status they are less vulnerable to violence across all societies. This book develops a political economy approach to understanding violence against women—from the household to the transnational level—accounting for its globally increasing scale and brutality.

The New Faces of Victimhood—Rianne Letscht 2011-01-21 Besides generating wealth, globalization makes victims of crime in new forms. In this book, international lawyers and criminologists reflect on the legal challenges posed by these dark sides of globalization. Examples include transnational organized crime, human trafficking and corruption, cyber crimes, international terrorism, global corporate crime and cross-border environmental crimes. The authors reflect on the limits of domestic systems of justice in providing protection, empowerment and redress to the victims of these emerging forms of global insecurity. They argue for the need of better international or supra-national institutional arrangements such as legal instruments and actions. In 2010, the United Nations and regional organizations such as the European Union as well as the United Nations. In part I Van Dijk and Rianne Letscht 2011 present an overview of trends in criminal victimization against the backdrop of globalization using a unique set of statistical indicators. By placing this issue in the framework of the human security concept, the authors draw out its broader political and normative implications. Theologian Ralf Bodeler explains how modern communication technologies have heightened sensitivities among the general public for human insecurities anywhere in the world. In his view, a new global conscience is in the making that may become the cornerstone of international solidarity and action. Marc Groenhuysen and Rianne Letscht 2011 describe the emergence of national and international legal and institutional arrangements to offer remedies to victims of crime in an era of globalization. In part II a selection of experts analyse the specific issues surrounding the protection and empowerment of victims of different types of international crimes such as human trafficking, organised crime/corruption, terrorism, global corporate crime and cross border environmental crimes. In part III focused attention is given to the special challenges and opportunities of protecting and assisting crime victims in cyberspace. Part IV deals with emerging victim issues in humanitarian law such as the accountability of private military companies and the implementation of the ambitious victim provisions in the statute of the International Criminal Court including the establishment of a global fund for reparations. In the final part of the book some of the core authors formulate their ideas about the international institutional arrangements that should be put in place to offer justice to the victims of globalization. A concrete proposal is made for the transformation of the United Nations 1985 Declaration on the Principles of Justice for Victims of Crime and Abuse of Power into a full-fledged UN convention. In the final chapter further proposals are made for the increased involvement of regional organisations such as the European Union in the protection of victims of global crime.

Sex Trafficking—Kathryn Farr 2004-11-05 One million people are trafficked into the sex industry each year. In this timely and provocative study, Kathryn Farr documents the macro and micro impact of trafficking women and children into this industry on a global scale. Farr looks not only at the victims themselves, but also at the sex trade’s main players, organized crime structure, economic conditions, and role in which various militaries perpetuate its demand. Sex Trafficking can be incorporated into a variety of courses in sociology, social problems, culture and sexuality, history, and women’s studies.

Globalization and Crime—Katja Franko Aas 2007-11-19 Globalization and Crime provides a comprehensive and accessible account of the consequences of globalization in the post 9/11 world. It explains theories around globalization and how these shed light upon the study of crime. Presenting an in-depth and interdisciplinary summary of complex debates, this book addresses a variety of highly topical issues.

Integrating Equality—Globalization, Women’s Rights, and Human Trafficking—Seo-Young Cho 2012

Illicit Trade and the Global Economy—Claudia Costa Storti 2012 Economists explore the relationship between expanding international trade and the parallel growth in illicit trade, including illegal drugs, smuggling, and organized crime. As international trade has expanded dramatically in the postwar period—an expansion accelerated by the opening of China, Russia, India, and Eastern Europe—illicit international trade has grown in tandem with it. This volume uses the economist’s toolkit to examine the economic, political, and social problems resulting from such illicit activities as illegal drug trade, smuggling, and organized crime. The contributors consider several aspects of the illegal drug market, including the sometimes puzzling relationships among purity, price, and risk; the effect of globalization on the heroin and cocaine markets; examined both through mathematical models and with empirical data from the U.K.; the spread of khat, a psychoactive drug imported legally to the U.K.; and the economic effect of the “war on drugs” on producer and consumer countries. Other chapters examine the hidden financial flows of organized crime, patterns of smuggling in international trade, Iran’s illicit trading activity, and the impact of mafia-like crime on foreign direct investment in Italy.

Toolkit to Combat Trafficking in Persons—United Nations Office on Drugs and Crime 2008 In the light of the urgent need for cooperative and collaborative action against trafficking, this publication presents examples of promising practice from around the world relating to trafficking interventions. It is hoped that the guidance offered, the practices showcased and the resources recommended in this Toolkit will inspire and assist policymakers, law enforcers, judges, prosecutors, victim service providers and members of civil society in playing their role in the global effort against trafficking in persons. The present edition is an updated and expanded version of the Toolkit published in 2006.

Human Trafficking—Wendy Stickle 2019-08-19 Human Trafficking: A Comprehensive Exploration into Modern...
Day Slavery by Wendy Stickler, Shelby Hickman, and Christine White examines the legal, socio-cultural, historical, and political aspects of human trafficking and modern-day slavery. While most texts only cover sex trafficking and labor trafficking, this text takes a more inclusive approach, providing coverage of what is currently known about organ trafficking, child marriage, and child soldiers as well. These topics are explored within the borders of the United States as well as across the world. The reality is that this problem is not limited to one country or, even, one continent. Technology and globalization have made this an international crisis that requires a collaborative and cooperative international response. The goal of this text is to provide an accurate understanding of all forms of human trafficking and current responses to this crime.
